

# CUSTOMER INFORMATION BULLETIN

DOLA

Department of LAND ADMINISTRATION

BULLETIN NO. 90  
11th JULY 1997

**In this issue:**

**A. NEW LAND TITLES SURVEY AND PLAN PRACTICE MANUAL**

## **A. NEW LAND TITLES SURVEY AND PLAN PRACTICE MANUAL**

A new Land Titles Survey and Plan Practice Manual is now available.

It was intended that updates of the initial manual (Land Titles Survey Plan Registration Manual) produced in March 1994 would be posted to registered purchasers from time to time however due to the regularity of changes and continuous improvement this was not cost effective.

The new manual contains a large new survey guidelines section. The Crown section includes new chapters on limited marking and easement surveys as well as substantial additions and amendments to existing chapters and more examples of Crown Survey Plans. The freehold section has been extensively expanded and a new digital data section has been added.

A Windows based hypertext digital (text only) version is included with the manual for the convenience of users. This hypertext version has several features including topic searching, bookmarking, history tracking and topic annotation. It also includes up-to-date hypertext versions of relevant survey regulations.

Minor updates of the manual will be provided through Customer Information Bulletins. Any major updates or upgrades will be made available at cost. A new Land Administration Bill which is currently before Parliament is likely to cause a number of changes particularly within the Crown section.

The new manual is available from the Client Services Branch in the Customers Services Hall of DOLA at Midland at a cost of \$70.00 or alternatively it may be ordered through the mail for the payment of an additional postage and handling fee of \$10.00 by completing the attached order form.
